Verse

I wish I could take away the pain
And pick up the shattered pieces
I wish I could say it'll be okay
But I don't have all the answers

Pre-chorus

I just know He is close to the broken hearted
I just know He is close to the broken hearted

Chorus

Forever and always, He'll never leave your side
Forever and always, He'll lead you through the hardest times
Don't give up, you can know, everywhere that you go
He is with you, forever and always, forever and always
He is with you, forever and always

Verse

I wish I could walk this road for you
And carry the weight You shouldered
'Cause I am simply lost for words
In silence I will share Your hurt

Pre-chorus

Chorus

Bridge

For every moment of your life
Through every smile and tear you cry

Even when your heart will break
When it feels like more than you can take
Through every single sleepless night
And every battle that you fight
From now until the end of time

Chorus

Forever and always, forever and always
Forever and always, forever and always, He is with you
Don't give up, you can know, everywhere that you go
He is with you

Ending

Forever and always, forever and always
He is with you forever and always
He is with you forever and always
He is with you forever and always
