Intro

A

Verse 1

Whose love reaches far beyond horizons?
The only One who makes a way for me
Say your Name and who knows what could happen
Cause when You speak the darkness flees how can it be?

Verse 2

All my fear now is held up on Your shoulders
Cause Your promise is more than I can see
As creation still bows in awe and wonder
Here I am, with lifted hands to the Saviour King

Pre-Chorus

Generations sing Your faithfulness

Cause You are always enough

All I need is Your love

Chorus

God I won't fear a thing
Got freedom in my veins
Cause Your Word is life
You're always good
Your Love won't fade
You give me life
You give me hope
So I give You praise

Verse 3

I see You in the fire and the thunder
Your light is the lamp unto my feet
In the night yeah I'll shout it even louder

My God is here

I'm in His hands

He fights for me

Bridge

How sweet it is to live in the light

I'm so in love

You are all I want

How great it is to need nothin else

Only Your love

I will lift You up
