Intro

G D Em C

Verse

Did I take Your joy for granted, was I making friends with feelings
When all I had to do was let go and let You in
Did I wrestled with devotion, in one day and out the other
When You were always gentle, You were always good

Pre-chorus

There's not a missing piece
When You are the thread between
Make right what's wrong in me
You only make good things

Chorus

My Father Tell me the truth again, remind of who I am
Love me like no one can, You always do
Sing over me again, I live with open hands
I know You're still working, You're not done yet

Interlude

C G Em D

Verse

Did I let my dreams go wasted by finding my worth from people
When You already told me Yours is who I am
So I'll trade my plans for Jesus, walk in His way of freedom
Everything I needed You already have
