Intro
B           F#          G#m          E

First Verse
           B
You saw me first
     F#                            G#m
You let me in when I was at my worst
         E                            B
The moment when I heard You say my name
         F#                            G#m
It's the             in so long, I'm not afraid
          E
I'm not afraid

Chorus
             B
You are the voice that calms the storm inside me
F#
 Castle walls that stand around me
G#m                           E
All this time my guardian was You
             B
You are the light that shines in every tunnel
F#
There in the past, You'll be there tomorrow
G#m                               E
All my life Your love was breaking through

After The Chorus
                  B         F#
It's always been You
                  G#m       E
It's always been You

Verse
           B
My northern star
     F#                            G#m
Your love will be the compass of my heart
   E                             B   /D#
Oh I just want to be right where You are
               F#
Right where You are

Chorus
             B
You are the voice that calms the storm inside me
F#
```

```
   Castle walls that stand around me
G#m                                    E
All this time my guardian was You
             B
You are the light that shines in every tunnel
F#
There in the past, You'll be there tomorrow
G#m                                       E
All my life Your love was breaking through

After Chorus
                   B         F#
It's always been You
                        G#m      E
And it's always been You
                   B         F#
It's always been You
                        G#m      E
It's always been You

Bridge
F#                    G#m
 Who stood with me in the fire?
E         B                    F#
 It was You,  it was always You
                    G#m
Who pulled me out of the water?
E         B                    F#
 It was You,  it was always You
                    G#m
And who carried me on their shoulders?
E         B                    F#     G#m   E
 It was You,  I know it's You

Chorus
             B
You are the voice that calms the storm inside me
F#
 Castle walls that stand around me
G#m                                    E
All this time my guardian was You
             B
You are the light that shines in every tunnel
F#
There in the past, You'll be there tomorrow
G#m                                       E
   All my life Your love was breaking through

After Chorus
                   B         F#
It's always been You
                        G#m        F#
And it's always been You
                   B         F#
It's always been You
                        G#m      E
It's always been You
                   B
It's always been You
