Verse 1

In the shadow of my hurt, it's been hard to see Your face
When the wreckage and the failure feel like more than I can take

Chorus

O how I need You, yes, I still do, o how I'm needing You now
O how I need You, yes, I still do, o how I'm needing You now

Verse 2

Disappointment stole my song, but I choose to sing again
Of the kindness You have shown when I could barely lift my hands

[Chorus]

Bridge 1

And You are my hope, You are my future
If I can have You, nothing but You, I have it all
Now I let go and now I surrender
If I can have You, nothing but You, I have it all

Bridge 2

You restore every broken thing, You return every melody
You're the calm in my raging sea, my healing, healing

[Chorus]

[Bridge 1]

[Chorus]

Ending

O how I need You, yes, I still do, o how I'm needing You now
