Intro:

G Em C D

When i think of all I've seen  
Nothing compares to what You give  
And to drink of what You bring  
You quench the thirst for me to live  
I can satisfy my want  
The tenderness You've shown to me  
And i empty all that I am

CHORUS:

And You fill my life  
You're everything to me  
And there's nothing else i need anymore  
And I know You, everything to me  
And there's nothing else i need anymore

(Same chords above)

I have tasted and i know  
Despite the hurt inside, we'll only grow  
And i sum all that this world  
Would try to offer me and led me to Your feet  
An i empty all that I am

I will lay down all my needs and  
You will come and make them new  
To make You only my desire  
My desire

And You fill my life  
You're everything to me  
Everything to me
