Verse

You know I had my doubts, I thought the fire went out
But the old winds are blowing, blowing again
You know I lost my way, and I'm sure I will again someday
But there's a whisper calling, calling again

Chorus

This is the sound of a child coming home, hallelujah
This is the sound of a welcome prodigal, hallelujah
I thought I was too far gone
But you always leave the light on
Praise God, praise God, praise God
I'm coming home

Verse

Thought I was miles away, somehow my vision changed
You've been with me, with me all along
Took me a long, long time to finally realize
That you've never, ever, ever shut the door
