You are the strength that comes from within

Good Shepherd of my soul

Take my hand and lead me on
Verse
                                                                                                                                                                                       F/A
You make my footsteps and my path secure
                                                                                                                                        C
