Intro

G
G G G G

Verse

E E throughout
Oh we trust You Jesus
Give us faith like a child
Faith that trusts their Father
You are true to every word in every promise
You will not fail me
You will not let me down, no
Give us faith like a child
Faith like a child
Simply believe, simply believe
Come with your love Jesus
Your love that drives out all fear
Your love that draws us in
Draws us close to You Jesus

Verse

E E transition to A E/G#
Now these are always the moments right here when I can feel the Father
Bringing greater healing to those of us who are Fatherless
Sometimes it's hard to trust when what you have known
Was something completely different
Maybe you were let down, maybe you were abandoned
Maybe you were hurt, maybe you were abused
And sometimes it's hard to see the Father, to trust the Father
But He's so patient and He's so kind
And if you're one of those people
This is a moment, an opportunity right here
To just surrender just a little bit more

Verse

A E/G# throughout
And to trust the Father
The One who made you, the One who knows you
The One who calls you, the One who saved you
The One who will restore you, the One who will restore you
The Father who loves you, the Father who knows you
You can trust, you can trust You can trust just a little bit at a time
Surrender, surrender, You will not be disappointed
You will not be disappointed, you will not be disappointed
Surrendering your all and giving Him your all
He will not let you down, He doesn't require perfection
He doesn't require perfection, He will meet you right where you are
He will meet you right where you are
Right where you are, right where you are, Yes
Just an open heart, just an open heart
Saying yes, surrendering and saying yes, Father
