## Chorus

          A      B                  C#m      E  
Welcome to the future, welcome to the here and now  
          A      B                  C#m      E  
Welcome to the future, what you know forget about  
          A      B                  C#m      E  
Some might call it magic, but I see supernatural  
          A      B                  C#m      E  
Welcome to the future, welcome to the future

## Interlude

A B C#m E

## Verse

          A                                  B  
Close your eyes take a step breathe it out let it in  
E /G#                                  C#m  
Lose yourself only just to find you  
          A                                  B  
Holding on let it go way beyond chemical  
          E /G#                                  C#m  
A feeling that I get when I run through

## Pre-chorus

          A                                  B  
Billions of stars up in the sky  
                  G#m                                  C#m  
The more that we know and wonder why  
          A                                  B  
Gravity calls the planets in line  
                  G#m                                  C#m  
How far can we go and what will we find

## Chorus

## Interlude

## Verse

A                                  B  
Coming down waking up shaking off all the dust  
E /G#                                  C#m  
There's no way I could ever go back  
          A                                  B  
Like a dream colorful everything beautiful  
          E /G#                                  C#m  
Stretching out as far as I can see
