## Chorus

                  D   E                  F#m      A  
Welcome to the future, welcome to the here and now  
                  D   E                  F#m      A  
Welcome to the future, what you know forget about  
                  D   E                  F#m      A  
Some might call it magic, but I see supernatural  
                  D   E                  F#m      A  
Welcome to the future, welcome to the future

## Interlude

D   E   F#m   A

## Verse

          D                                  E  
Close your eyes take a step breathe it out let it in  
A /C#                                  F#m  
Lose yourself only just to find you  
          D                                  E  
Holding on let it go way beyond chemical  
          A /C#                                  F#m  
A feeling that I get when I run through

## Pre-chorus

                  D                  E  
Billions of stars up in the sky  
                  C#m                  F#m  
The more that we know and wonder why  
                  D                  E  
Gravity calls the planets in line  
                  C#m                  F#m  
How far can we go and what will we find

## Chorus

## Interlude

## Verse

          D                                  E  
Coming down waking up shaking off all the dust  
A /C#                                  F#m  
There's no way I could ever go back  
          D                                  E  
Like a dream colorful everything beautiful  
          A /C#                                  F#m  
Stretching out as far as I can see

Pre-chorus
