## Chorus

                  G    A                          Bm          D  
Welcome to the future, welcome to the here and now  
                  G    A                          Bm          D  
Welcome to the future, what you know forget about  
                  G    A                          Bm          D  
Some might call it magic, but I see supernatural  
                  G    A                          Bm          D  
Welcome to the future, welcome to the future

## Interlude

G A Bm D

## Verse

          G                                  A  
Close your eyes take a step breathe it out let it in  
D /F#                                  Bm  
Lose yourself only just to find you  
          G                                  A  
Holding on let it go way beyond chemical  
          D /F#                                  Bm  
A feeling that I get when I run through

## Pre-chorus

                  G                  A  
Billions of stars up in the sky  
                  F#m                  Bm  
The more that we know and wonder why  
                  G                  A  
Gravity calls the planets in line  
                  F#m                  Bm  
How far can we go and what will we find

## Chorus
